

Remind Accessibility Statement

Our commitment

As part of providing an exceptional experience for all Remind users, our goal is to build and maintain products and services that are accessible to the widest possible audience, regardless of ability.

Accessibility in action

Our efforts are guided by US Section 508 Standards and the W3C Web Content Accessibility Guidelines (WCAG) 2.0 Level A + AA success and conformance criteria. Feature development at Remind includes readability considerations such as size, color, and contrast.

Ongoing efforts

In order to meet accepted standards and guidelines, we work continuously to improve the accessibility of our product and services. Along with conducting research, we value user feedback to help identify areas for improvement.

Further information

Please contact accessibility@remind.com with any questions, comments, or suggestions related to accessibility and usability.
